01 PRODUCT OVERVIEW

SECRO-MARVEL is a premium German-engineered skin revitalizing injectable, featuring a synergistic blend of **Hyaluronic Acid (HA)**, **Polynucleotide (PN)**, **Polydeoxyribonucleotide (PDRN)**, **Bioactive Collagen**, and **Glutathione**. Formulated with cutting-edge biotechnology, it delivers multi-dimensional skin repair, regeneration, and anti-aging effects at the cellular level, setting a new standard in aesthetic skincare.

Specification: 2 pre-filled syringes × 3mL per box

Clinical Classification: Sterile, microbiologically tested injectable solution

02 CORE INGREDIENTS

Ingredient	Concentration	Role & Function
Hyaluronic Acid (HA)	18 mg/mL	Cross-linked low-molecular-weight HA provides deep hydration, strengthens the skin barrier, and supports extracellular matrix stability.
Polynucleotide (PN)	10 mg/mL (1.0%)	High-purity salmon-derived PN activates cellular repair pathways, enhances microcirculation, and accelerates tissue regeneration.
Polydeoxyribonucleotide (PDRN)	5 mg/mL (0.5%)	Purified PDRN binds to adenosine receptors to reduce inflammation, stimulate neocollagenesis, and improve skin texture.
Collagen	15,225 ppm	Optimized ratio of native collagen peptides restores structural density, improves elasticity, and smooths fine lines.
Glutathione	20 mg/mL	Potent antioxidant neutralizes free radicals, inhibits melanin synthesis, and brightens uneven skin tone.

The Synergistic Power of 5 Premium Actives

03 ADVANCED FORMULATION TECHNOLOGY

- **Multi-Stage Purification Process**

All active ingredients undergo a 7-step filtration system to remove endotoxins, residual proteins, and impurities, ensuring ultra-low immunogenicity and maximum biocompatibility.

- **Stabilized Bioactive Delivery System**

A patented pH-buffered, isotonic solution preserves the structural integrity of PN/PDRN and collagen, ensuring controlled release of actives into the dermis for prolonged efficacy.

- **Synergistic Matrix Technology**

HA acts as a hydration reservoir, while PN/PDRN drive cellular regeneration, collagen rebuilds structural support, and glutathione neutralizes oxidative stress—creating a self-reinforcing anti-aging cycle.

04 BENEFITS

Deep Skin Regeneration

PN/PDRN stimulate fibroblast activity and collagen synthesis, reducing the appearance of fine lines, wrinkles, and post-procedure scarring.

Intense Hydration & Barrier Repair

Cross-linked HA replenishes dermal moisture, improving skin plumpness, smoothness, and reducing transepidermal water loss.

Brightening & Antioxidant Protection

Glutathione inhibits melanin production and neutralizes free radicals, reducing dullness, hyperpigmentation, and environmental damage.

Enhanced Skin Elasticity & Firmness

Bioactive collagen peptides restore dermal density, improving skin laxity and sagging for a more youthful contour.

Anti-Inflammatory & Soothing Action

PDRN modulates inflammatory responses, making it ideal for sensitive, stressed, or post-procedure skin.

05 Key Product Advantages

Balanced Synergistic Formula:

Optimized concentrations of five actives avoid overstimulation, ensuring reliable, natural-looking results.

Versatile Application:

Suitable for mesotherapy, microneedling, and multi-point injection protocols.

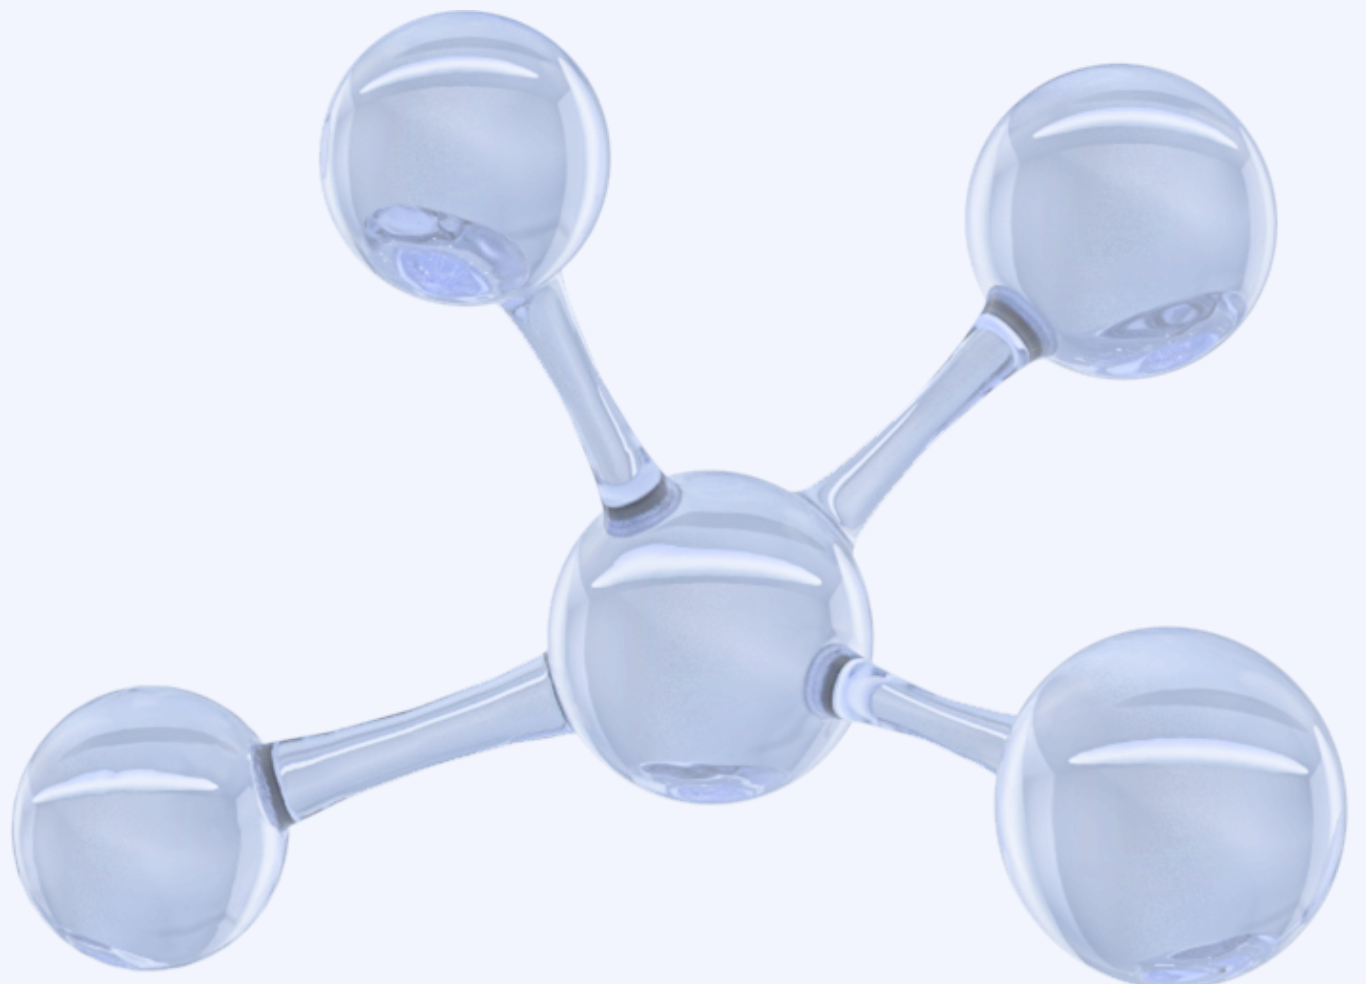

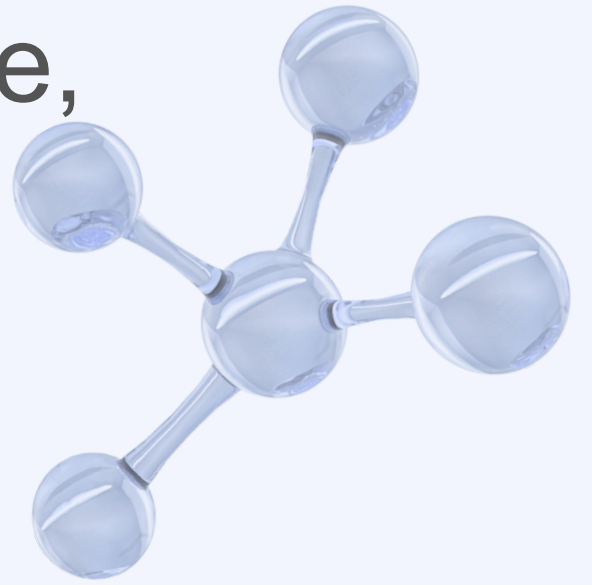

Long-Lasting Efficacy:

Controlled-release formulation extends benefits for 3–6 months post-treatment.

Low Downtime:

Biocompatible solution minimizes redness, swelling, and irritation for rapid recovery.

06 APPLICATIONS

● **Skin Rejuvenation & Anti-Aging**

For dull, tired, or aging skin with fine lines and reduced elasticity.

● **Post-Procedure Repair**

Supports recovery after laser, chemical peels, or surgical procedures.

● **Brightening & Tone Correction**

Addresses uneven skin tone, post-inflammatory hyperpigmentation, and sun damage.

● **Hydration Boost**

Ideal for dry, dehydrated skin with compromised barrier function.

07 SAFETY & HANDLING INSTRUCTIONS

Professional Use Only:

Administered by licensed medical practitioners under sterile conditions.

Contraindications:

Do not use on pregnant/nursing patients, those with known allergies to any ingredients, or active skin infections.

Storage:

Store in a cool, dry place (2–25°C), away from direct sunlight. Keep out of reach of children.

Shelf Life:

24 months from the manufacturing date. Do not use if the package is damaged or expired.
